

## CV LINK IS COMING TO YOUR AREA PAVING & NIGHTWORK JULY 1-19, 2024

The Coachella Valley Association of Governments (CVAG) is building the next segment of CV Link in the City of Coachella. Our construction crew will be paving the concrete pathway along the top of the Coachella Valley Stormwater Channel levee.

CV Link is a 40-plus mile pathway that is being built across the Coachella Valley to provide a safe route to walk, run, bike or use low-speed electric vehicles, such as golf carts. CV Link is expected to provide significant environmental, public health, and economic benefits to generations of current and future residents and visitors to our valley.

### WORK HOURS & WHAT TO EXPECT

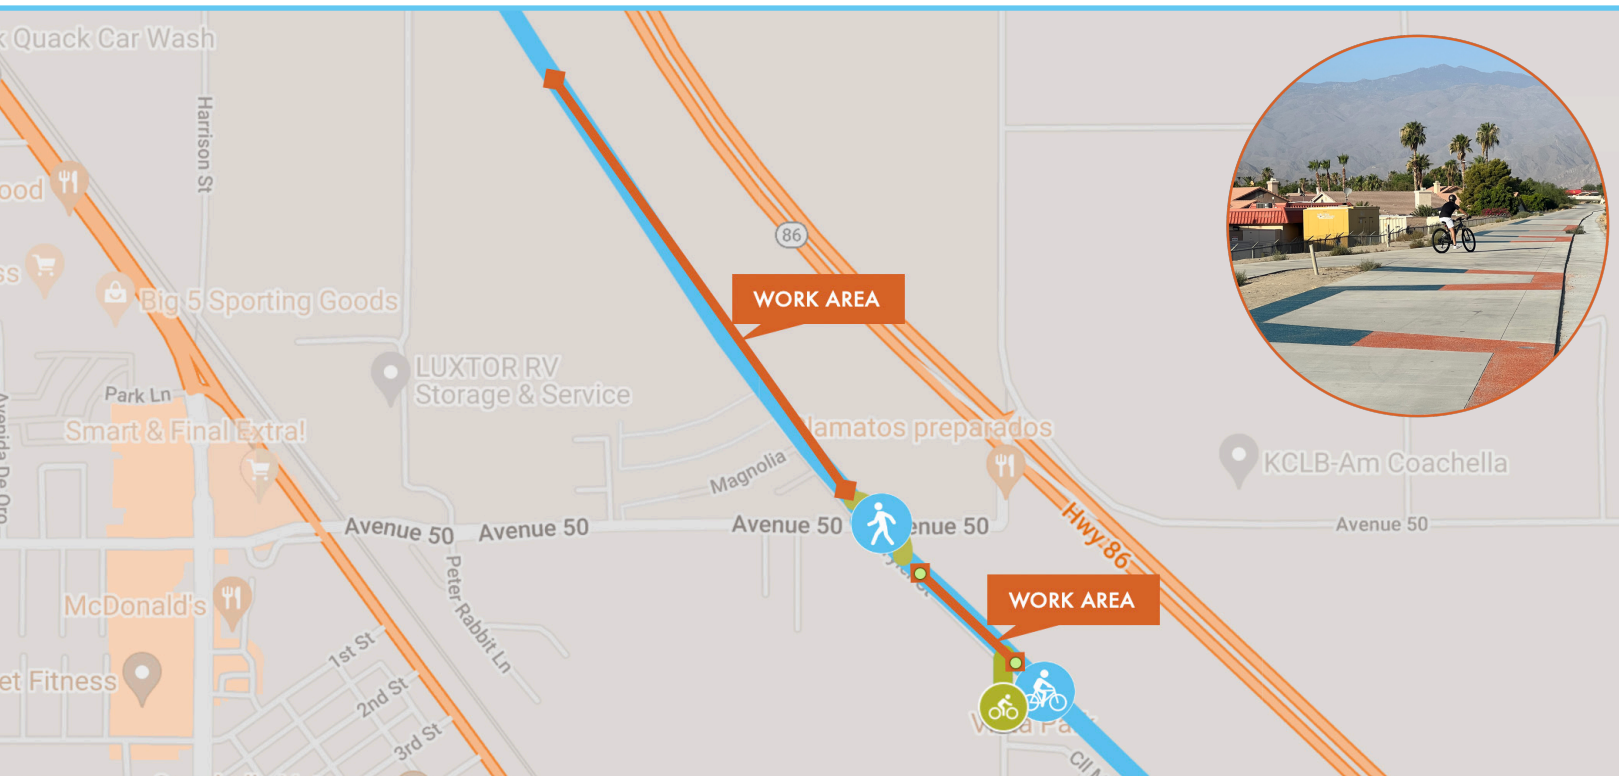

#### GRADING & SOIL COMPACTION | JULY 1-11TH 7:00 A.M. - 5:00 P.M.

Noise & Vibrations – Residents and businesses near the channel may experience periodic construction related noise and vibrations. Construction activities such as soil compacting, excavations, moving heavy machinery, etc., can cause ground borne vibrations that can physically be felt by residents.

#### PAVING & SAW CUTTING | JULY 15-19TH 11:00 P.M. - NOON

Nighttime Work & Early Morning Noise – Crews will be paving during the night due to extreme heat during the day. Night paving will include lights and backup alarms on equipment. Saw cutting will begin in the early morning following each night of paving at approximately 7:00 a.m. beginning on July 16th.

Every effort will be made to minimize any disturbance to the community. Please contact us with any questions or concerns. We appreciate your cooperation throughout this project. Due to the dynamic nature of construction, please note that all dates and times are subject to change due to unforeseen operational factors or inclement weather.
