

FOUR SEASONS PALM SPRINGS

JUNE 2024

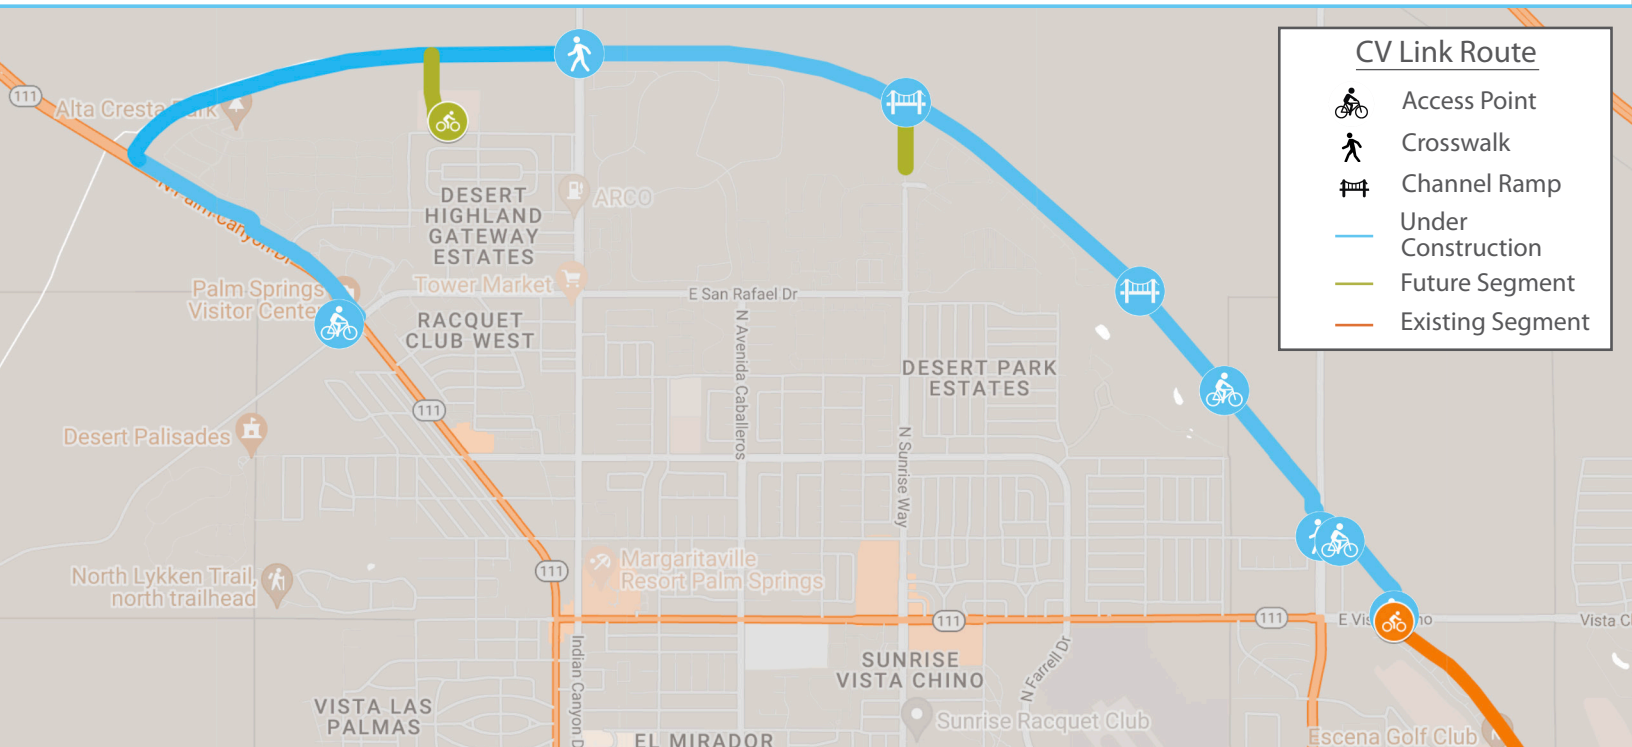

The Coachella Valley Association of Governments (CVAG) is building the next segment of CV Link in the City of Palm Springs from Highway 111 to E. Vista Chino. Construction crews are currently working on the section of CV Link adjacent to the Four Seasons Community where the pathway will not run along the top of the levee but will be within the Whitewater River Stormwater Channel (see photo to the right).

WHAT TO EXPECT

Noise & Vibrations – Residents near the channel may experience periodic construction related noise or vibrations. Construction activities such as soil compacting, excavations, moving heavy machinery, etc., can cause ground borne vibrations that can physically be felt by residents.

Vehicle Traffic – Construction vehicles and heavy equipment may travel and/or be parked along the top of the levee.

Every effort will be made to minimize any disturbance to the community. Please contact us with any questions or concerns. We appreciate your cooperation throughout this project. Due to the dynamic nature of construction, please note that all dates and times are subject to change due to unforeseen operational factors or inclement weather.
