

# CV LINK IS COMING TO YOUR AREA

**MARCH 14-31, 2022**

**WASHINGTON ST. | ADAMS ST. | DUNE PALMS RD. | JEFFERSON ST. AT THE WHITEWATER RIVER**

The Coachella Valley Association of Governments (CVAG) is building the next segment of CV Link in the City of La Quinta. Crews will be paving the concrete pathway along the Coachella Valley Stormwater Channel levee.

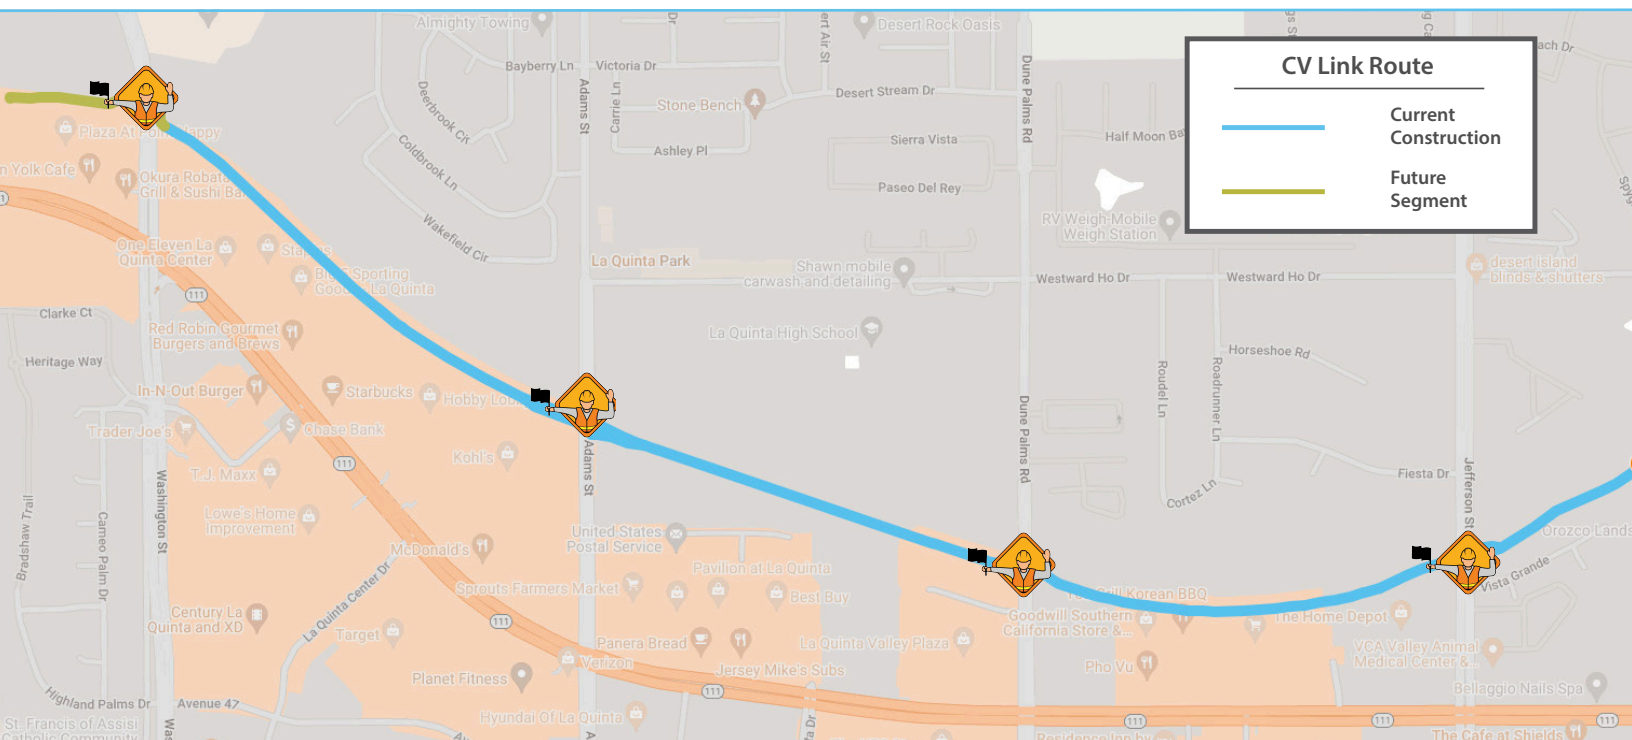

CV Link is a 40-plus mile pathway that is being built across the Coachella Valley to provide a safe route to walk, run, bike or use low-speed electric vehicles, such as golf carts. CV Link is expected to provide significant environmental, public health, and economic benefits to generations of current and future residents and visitors to our valley.

## WHAT TO EXPECT:

**Traffic Control** – Flagging on Washington Street, Adams Street, Dune Palms Road and Jefferson Street near the levee. Please reduce speed as truck traffic will be heavy into and out of the site. Plan ahead for delays or use alternate routes.

**Noise & Vibrations** – Businesses and residents near the Coachella Valley Stormwater Channel may experience construction related vibrations and noise that will include some short-term disturbances throughout the late night/early morning.

We appreciate your cooperation throughout this project. Every effort will be made to reduce the inconvenience to drivers and minimize any disturbance to the community. Due to the dynamic nature of construction, please note that all dates and times are subject to change due to unforeseen operational factors or inclement weather.
