

FOUR SEASONS PALM SPRINGS

PATHWAY PAVING & CONSTRUCTION UPDATE

FEBRUARY - MARCH 2025 | 7:00 A.M. - 7:00 P.M.

Construction crews will be paving the pathway within the Whitewater River Channel adjacent to Four Seasons from Sunrise Way to Desert Breeze Way on February 26-28th. Starting in early March, paving of the channel ramps located in the northwest and northeast corners of Four Seasons will occur. In mid-late March, crews will be filling in gaps with smaller hand pours along the pathway within the channel. Looking ahead to April and May, will be the installation of solar pathway lights and signage as we near project completion.

CV Link is a 40-plus mile pathway that is being built across the Coachella Valley to provide a safe route to walk, run, bike or use low-speed electric vehicles, such as golf carts. CV Link is expected to provide significant environmental, public health, and economic benefits to generations of current and future residents and visitors.

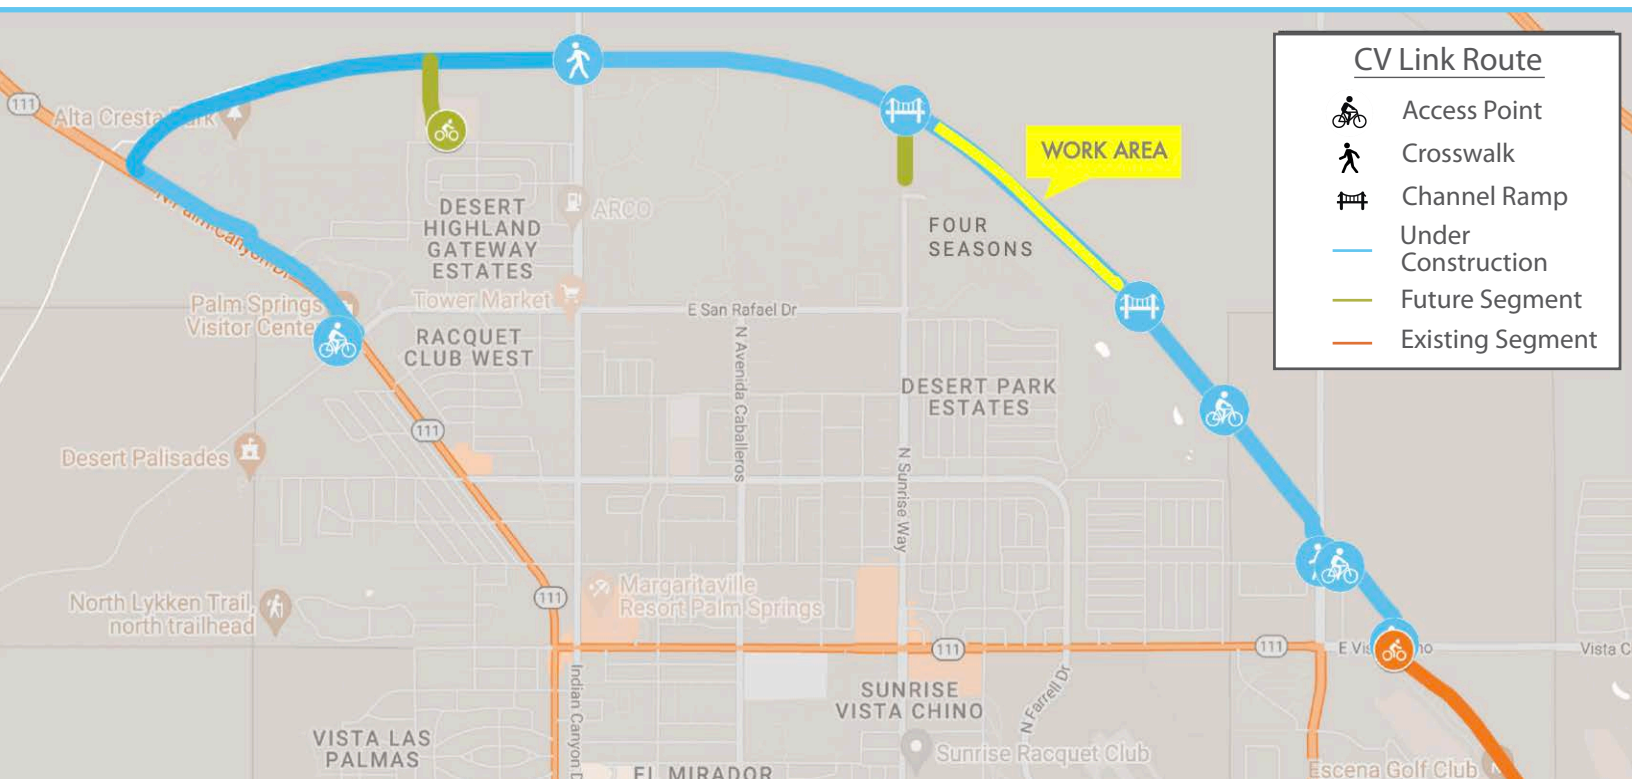

WHAT TO EXPECT

Noise & Vibrations – Residents and businesses near the channel may experience periodic construction related noise or vibrations. Crews will be paving during the day and saw cutting in the afternoon/early evening. Construction activities such as soil compacting, excavations, moving heavy machinery, etc., can cause ground borne vibrations that can physically be felt by neighboring properties.

Vehicle Traffic – Construction vehicles and heavy equipment will travel and/or be parked along the top of the levee.

Every effort will be made to minimize any disturbance to the community. Please contact us with any questions or concerns. We appreciate your cooperation throughout this project. Due to the dynamic nature of construction, note that all dates and times are subject to change due to unforeseen operational factors or inclement weather.
